**Webinar Recap:
Getting Your
MSP Poised
For Growth**

BLUENET

ADAM WITTKÉ, FOUNDER BLUE NET INC.

"When I founded Blue Net in 2022, my focus was on refining our mission, streamlining our organization, and modernizing systems to support our growth in the IT industry. However, as we transitioned, we struggled with financial alignment. Our internal bookkeeper did their best, but it became clear we needed more expertise. **Next Level Now Fractional CFO joined us in Q1 2024, and their strategic insight made a huge difference.** They guided us through the transition of systems, including QuickBooks, helping us navigate cash flow and long-term growth. Today, we have a leaner team, higher EBITA, and are well-positioned to scale—all thanks to Next Level Now and a system like HaloPSA."

In Case You Missed It

Learn how Adam founded his MSP in 2022 and grew it from a one-person company to over \$4 million in sales. With the help of our Next Level Now Fractional CFO, they were able to transform financial operations.
