Transformational Financial Leadership

## UNLOCK YOUR FULL POTENTIAL AND GROW YOUR MSP

Finally, MSP owners can rest easy. Gain the financial leadership you've always wanted. Our expert CFOs, Controllers, and Accountants have a proven track record with Managed IT Service Providers and more. We're also well-versed in your systems, including ConnectWise and Halo. Let us help you overcome obstacles, strengthen your infrastructure, and drive profitability, allowing you to focus on what you do best—serving clients and growing your MSP.

## MANAGED SERVICES PROVIDER CUSTOMER TESTIMONIAL

"When I founded Blue Net in 2022, I focused on refining our mission and modernizing systems for growth in the IT industry. We went from a one-person company to over \$4 million in sales. In the beginning, we struggled with financial alignment. We did our best, but we needed more expertise. **After our Next Level Now Fractional CFO joined, their strategic insight transformed our operations.** They guided us through system transitions, including QuickBooks, and helped us navigate cash flow and long-term growth. Now, we have a leaner team, higher EBITDA, and are well-positioned to scale." - Adam Wittke, Blue Net Inc.

### GROWTH PLANNING

Unsure about hiring or opening a second location? We'll help MSPs make informed decisions with data-driven insights and secure the funding needed for growth.

### LEADERSHIP

We practice EOS (Entrepreneurial Operating System) and can drive your leadership team forward.

### PROCESS

Every successful MSP relies on repeatable processes and systems. We'll establish and maintain these frameworks to ensure your team operates efficiently and effectively.

### EXCELLENCE

We'll develop exceptional financial packages tailored for your MSP that will impress your leadership, team, and partners. Our ERP experts will also optimize your finance tech stack to enhance your operational efficiency and support growth.
